## WORKSHOP & EQUIPMENT

TT has acquired a series of modern machines and equipment such as vertical lathes, drill press, milling lathe, grinding machines, cncs, other general machine tools and physical and chemical analysis and experiment devices. Only recently,

TT has made another round of investment to build a brand new workshop and added many state of art machines and equipment to improve our quality and expand our manufacturing capacity.

exporting is the dominant operation at TT .in the process of lead brand promotion and building up our distribution channels over the years and now has many satisfied and loyal customers,

TT is well recognized and its products are widely used in the oil and gas industry, power plant, boiler, metallurgy, pressure vessel, water supply and drainage and etc.
